ABOUT 2021 VIRTUAL PRME GLOBAL FORUM

In 2007, **The Principles for Responsible Management Education (PRME)** was established as a United Nations-supported initiative to raise the profile of sustainability in schools around the world. As a UN Global Compact initiative, PRME equips today's business students with the understanding and ability to deliver change tomorrow.

As we begin the Decade of Action, just six years after the adoption of the Sustainable Development goals, the world is not on track to achieve the 2030 Agenda. The converging crises of climate change, a deadly global pandemic, worsening social and economic inequality, and unchecked corruption, have been compounded by a retreat from global cooperation. Furthermore, rising dropout rates and lack of preparedness for the future of work threaten the ability of future leaders to deliver change. More now than ever, there is a need for the business and academic communities to engage with the UN, Governments and civil society to address these challenges.

The 2021 Virtual PRME Global Forum will focus on the strategic vision to accelerate and scale the global collective impact of responsible management education. It will bring together stakeholders from business, academia, the United Nations, the public sector and the PRME community to accelerate the positive impact responsible management and business education can make on the leaders of tomorrow. Join over **1,000 fellow leaders** to envision and shape the future of business and management education in support of the global effort to achieve the Sustainable Development Goals (SDGs).

TOGETHER, WE CAN TRANSFORM BUSINESS AND MANAGEMENT EDUCATION TO EMPOWER STUDENTS TO DELIVER CHANGE FOR A BETTER WORLD.
