Thank you to all who participated, especially the new Global Chapter Council (2024 - 2025):

**TASK**  
By Sulitest

Sulitest and PRME announce a new partnership to support measuring and monitoring sustainability knowledge amongst students. Sulitest has been leading the assessment framework of PRME's Impactful Five (i5) project since 2023 and are now excited to provide their assessment tools to the greater PRME community.

As a comparable assessment, TASK can be used to compare programs, or in entry- and exit-testing of a cohort of students. It enables higher education institutions to identify areas of improvement and monitor progress. These detailed and aggregated results provide evidence to accreditors, rankings, and various stakeholders of the tangible outputs of a sustainability education strategy. PRME Signatories who join the TASK™ Change Leader program this year will benefit from a discount.
