PRME's 2022 Annual Report

We are proud to present PRME's 2022 Annual Report, which features inputs from various constituencies: PRME Board, PRME Secretariat, PRME Champions, PRME Chapters, PRME Affiliates, PRME Partners, and other stakeholders. This report highlights our collective commitment to Responsible Management Education.

The report covers our key achievements from 2022, including the launch of the Impactful Five (i5) Project, which seeks to engage students in transformative initiatives and greater progress toward a more sustainable future. We are honored to collaborate with you all in creating these inspiring stories, and to everyone who contributed to not only this report, but year as a whole. Thank you for your support.

We are pleased to announce the launch of the new survey, which will enable us to continue gathering individual ideas as well as group thinking in a more systematic and comprehensive way. The PRME Principles Task Force (PPTF) will continue its extensive community consultation efforts to develop new survey questions and gather responses. These two channels enable us to continue gathering individual ideas as well as group thinking in a more systematic and comprehensive way.

In order to make this report accessible to all, we are launching the Accessibility Report, which will be available online. This report will highlight the efforts we have made to ensure that the content is accessible to all, and provide guidance on how to make our materials more accessible.

We are excited to share the progress we have made in 2022, and look forward to continuing our work in 2023 and beyond. Thank you for your support, and we look forward to sharing our progress with you throughout the year.
