Feast of the Future

At the annual meeting: to move from feeling to questioning our values, to acting and feeling, and as we feel, to care. Hence, the importance of arts-based learning in this year’s annual meeting: to move from feeling to questioning our values, to acting and

Adopting a resolution on regulating the emerging field.

General Assembly also recognized AI systems’ potential to accelerate and enable the transition to a regenerative economy. The World Commission on the Economy and the Future (WCEF) also published a new report, “Building a Community of Practice,” which outlines a framework for action on a global scale.

Apart from realizing that we are contributing to societal problems... we must care about the future of the planet.
